How to create a romantic bedroom

- Declutter
- Make it about the two of you
  - Colors matter
  - No kids zone
  - Lighting (sexy/soft)
    - Pillows
- Art/Pictures

Creating a romantic and sexy bedroom doesn't have to break the bank. A little effort goes a long way. Start with decluttering, remove all the dirty laundry, mail, trash. Now discuss the vision between the two of you. If you can avoid the bedroom being shared with children and work, do it! If you cannot, create dividers to separate and create a sacred space for your love.

Let's get started:

How about a fresh coat of paint to bring some color.

Some colors are known to bring calm, and or sexy, so choose wisely. A little can go a long way. Even if it's just one accent wall it can feel like a makeover!

A new comforter set coordinated with pillows and sheets.

Add in sexy pictures of the two of you. If you don't have any, take some, print and frame. Depending on your space, a nice sexy rug or a chair can be nice additions for so many reasons (wink).
